Markland, Dodge & Moore.
One farmer says he never yet saw the time in Kansas when corn, "put into hogs," was not worth seventy cents per bushel. If this is the case (and we have no reason to doubt it), it does pay to raise corn in this State. It is certain that the "hog market" in Kansas is not likely to be dull for many years to come.
FOR SALE ON TRADE—A new Fanning Mill. Address: T. H. TERRY, BAVARIA, KANSAS.
Mapes says the lower mill is getting so full of new machinery that it will soon compel one miller to step out doors while the other works. As fast as new inventions in mill machinery come out, C. R. Underwood & Co. take advantage of them and introduce the new machinery into the mill. We do not hesitate in pronouncing this mill the best and most complete of any west of the Mississippi river.
We are positively going out of business, and will sell you goods cheap.
Litowich & Wittmann.
A man peddling a compound which possesses all the powers of the magician's wand, had been shouting upon our streets for two days and entertaining money crowds with wonderful stories of what his mend-all had done. On Monday he was approached by Marshal Tuttle and requested to display a license to satisfy the demands of our city ordinance. Not having one to show, he became wroth and claiming extraordinary power and skill in evading licenses and punning officers, supposing him to be unduly influenced, the marshal conveyed him to the city hospital for drunks and unmanageable people, where he passed a very quiet night conversing with himself upon the conveniences of the hospital.
Our entire stock is for sale cheap. Come and make us an offer.
Litowich & Wittmann.

Positively everything to be closed out within the next ninety days.
Litowich & Wittmann.

The steamer, Belle of Salina, sank at her landing last evening (Tuesday). The boat is under water as far back as the smoke stack. The cause for her going down is not known, but it is believed by the owners that she has been scuttled by some scoundrel or scoundrels. Workmen will be engaged to-day to raise her and repair the damage done.

On Friday evening last Mr. J. W. Baughman, a brakeman on the K. P. railroad, was killed near Victoria, by falling between two cars and a portion of the train passing over him. The train had run about 12 miles before Baughman was missed. As soon as it was known that he was not on the train, the train was backed until they came to the spot where he fell, and where his lifeless body was found badly mangled. He was a nephew by marriage of Maj. Forssie and his family resided in Falun, in Falun township, on Sunday last.
A friend of ours, a single man of uncertain age, insists upon it that this leap year is all a myth and a hoax, and he don't see the necessity of its interfering with the course of time and running in an extra day in the year just to give forward and a-swinging women an opportunity to marry retired and quiet men.
"Why," said he, "last year I made three proposals within eleven months, and had nearly made a fourth one, when the year ran out. Being as how 'twas the custom, of course I thought I'd give the women a chance; but not one of them have done the right thing yet, that I know of. Darned if I don't think I could be married a few more, if it had't been for this yer leap year business!"

Ober, Bond & Wilson.
The elegant counters of the Grand Monarch, on the field of battle, were accustomed to salute the enemy with, "Please fire first, gentlemen." A polished citizen of Salina, the other day, had a discussion with another citizen, and finally "got his mad up." Says he, "I will give you every chance in the world. I bare my breast and ask you to strike me. If you will only do that, and show that you have any courage, I will agree not to return the blow, and will give you a receipt in full for that ten dollar bill you borrowed of me two years ago." The "other fellow" drew back and gave him a punch that landed the polished gentleman some six feet away from his original position. He then slid rapidly out of the room, not waiting for the receipt, and to hear the polished gentleman's comments on his courage. Undoubtedly the receipt will be forthcoming.
Tar troches will cure sore throat, remove hoarseness and strengthen the voice. Just the thing for singers and public speakers. Sold for 25 cents per box at Seitz's drug store.

Your hair can be preserved, dandruff removed, by using Brown's hair tonic. It is the best. Sold by Oscar Seitz at fifty cents per bottle.
That Iron Avenue bridge and the approaches have had a great deal of abuse but not near as much as they deserve. Time and time again has it been predicted that some fatal accident would occur in consequence of their wretched condition, and had not some protecting providence intervened a terrible one would have happened there last Monday morning. Mr. Gels, accompanied by Mrs. Gels, Mrs. F. Carroll and Mr. Hessler, had driven from the East side across the bridge and was in the act of descending the approach on this side, when the horses commenced crowding each other until they were precipitated over the embankment some twenty feet into the narrow ravine below—dragging the carriage after them. The carriage turned upside down, but its occupants remained inside until after the catastrophe, and were thus saved from any bodily injury. The upper part of that fine vehicle was rendered a complete wreck, but was of sufficient strength to prevent injury to the inmates. A large number of people hastened to the bridge, expecting to see somebody killed or dangerously injured; but they were greatly surprised as well as pleased to see the ladies and gentlemen issue from the bottom of that ravine, safe and sound in body and limb, and even half laughing at their strange adventure. By the help of the crowd the horses were soon extricated from the harness, and were brought safely up with the wrecked carriage to "day light." Not even the horses seem to be injured. This is only one of the many like accidents seen to follow as long as we have that frail of a bridge and approaches. When the city and county have been called upon to contribute toward paying for somebody's broken limbs, then will they become earnestly enlisted in some project for the building of a decent bridge. Perhaps not before.

Grand Donation.
As we are going out of business, and the people from this and adjoining counties having been very liberal in patronizing us, we shall now give them an opportunity to buy goods cheaper than they ever bought them before—even cheaper than they ever heard of any one buying goods. For every five Dollars worth of goods purchased we will give them a ticket in a Silver Tea Set and Ice Pitcher, which will be drawn on February 1st, 1877. Everybody come and buy five dollars worth of goods.
Litowich & Wittmann.
Tuesday evening, Dec. 5th, there will be a concert given in the Presbyterian church by the Misses Kellogg, assisted by the musical talent of Salina. The programme will consist of solos, duets, trios and quartets. These young ladies are members of the Musical Union of Topeka, and received their musical education in the East, and they can furnish abundant testimonials of their ability to give a first class concert. Miss Mary Kellogg is pianist of the Musical Union of Topeka, and the Commonwealth gives her a number of flattering notices; this with the pleasure of hearing your own singing, ought to secure your attendance. Tickets 50 cents, children 25 cents, for further particulars see small bills.
Grand Enterprise.
Somebody sure to be benefited. A brand new double seated Spring Wagon, worth \$150, to be given away. Anybody buying ten dollars worth of goods, and paying cash therefor, will get one chance in the wagon; and wagon to be drawn January 15, 1877, at Ober, Bond & Wilson's Cheap Cash Corner.
McGonigal's Thanksgiving Sermon.
If the sixty thousand sermons that will be preached to-day would turn into ham and eggs, each prayer into beef-steak, each hymn into buckwheat cakes, each benediction into a barrel of flour, each amen into a good fat turkey, each doxology into a quarter of mutton, each praise of God into a flannel shirt, each regard for Jesus into an apple-donuplin, each reverential word into a ham, each solemn expression into an Irish stew, and each fervent wish into boarding house hash, then the poverty stricken ones of earth would have reason to rejoice. But such, however, is not the case. They are all as barren of results as the attempt of a puny child to put out the lightning with a squirt gun. If, when Moody preached and Sankey sang, there would issue from their choristers lungs something tangible, something real—for example, if each brother they drew should turn out one of those noble suits that McGonigal gets up for the people, then we might consider their mission divine.
J. B. McGonigal.
We close office to-morrow (Thursday), except for passenger trains. F. C. JACKSON.
The Kansas Pacific railroad changed the running time of the mail trains last Sunday, and Salina is practically about 200 miles further west in mail matter. The mail which was formerly delivered at 8 o'clock in the evening is not delivered until 6 o'clock in the morning, and the western mail arrives about an hour earlier than heretofore. Of course the business men are not at all good natured over the change, and Postmaster Campbell will receive all the curses for such "an outrage." There are some features about the change, however, which we believe will be generally admitted as beneficial to our city. Heretofore we have not had an evening entertainment in our city—literary, musical or dramatic; we have not had an evening meeting in our churches, that has not been disturbed by some one (often six or eight boys and as many men) who had waited until the mail was distributed before they would attend—little caring how much they annoyed a house full of people. By the change, this nuisance is done away with. It is noticeable that lodge meetings are more generally attended, and there will probably be fewer meetings adjourned for lack of quorum. Of course we would have preferred an earlier mail; yet almost any time is preferable to a 7 or 8 o'clock mail. Hereafter the post office will open at 6 a. m. and close at 8 p. m., every day except Saturday, when the mail will be distributed and delivered before the office is closed. The change is hard on the postoffice force.
